3. Work Plan for 2019 Refinement

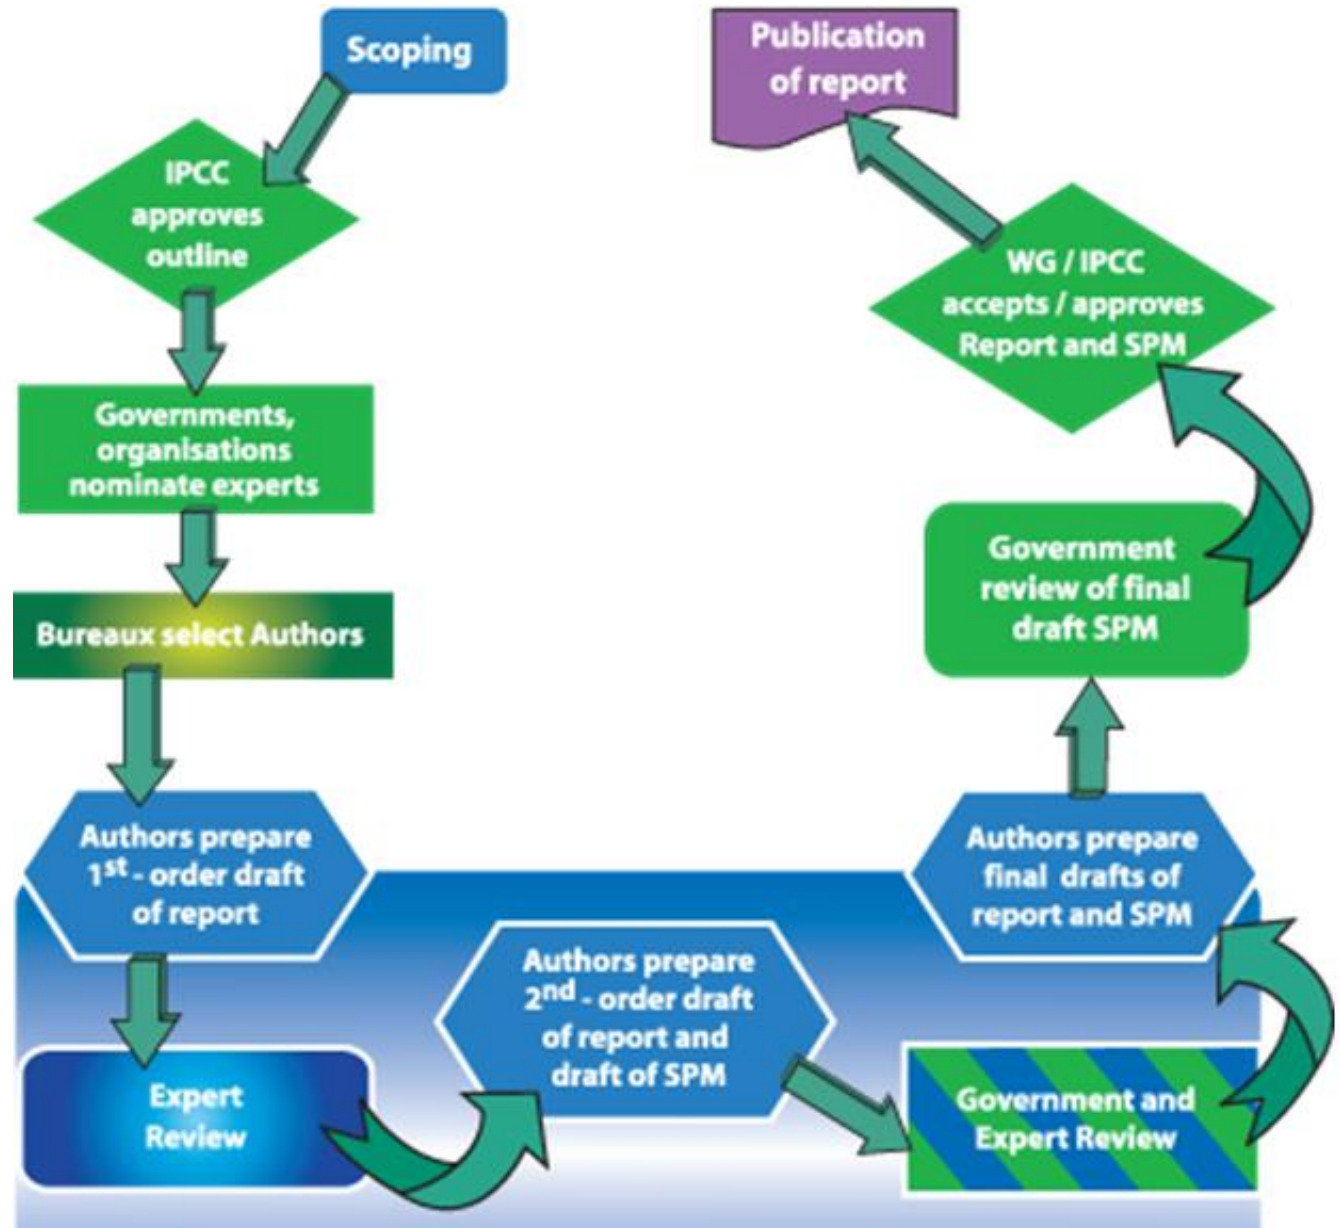

IPCC procedures

To ensure proper preparation and review of the IPCC Reports, the following steps should be undertaken:

1. Compilation of lists of potential Coordinating Lead Authors, Lead Authors, Contributing Authors, Review Editors and of Government Focal Points
2. Selection of Coordinating Lead Authors, Lead Authors and Review Editors
3. Preparation of draft Report.
4. Review
 - a. First Review (by experts)
 - b. Second Review (by governments and experts)
5. Preparation of final draft Report
6. Acceptance of Report at a Session of the Working Group(s) or the Panel respectively

IPCC Procedures

IPCC Reports must be produced through the official rigorous writing and review process

Review Process

The review process generally takes place in three stages:

- **Expert review** should normally be eight weeks, but not less than six weeks, except to the extent decided by the Panel
- **Government and government/expert reviews** should not be less than eight weeks, except to the extent decided by the Panel
- The final draft of... Methodology Report related to National GHG Inventories will be circulated for a final government round of written comments in preparation of ...Session of the Panel that adopts it

Acceptance of Report / Adoption of Overview Chapter

- Reports prepared by the Task Force on National GHG Inventories are accepted by the Panel
- Overview Chapters of Methodology Reports related to National GHG Inventories will be adopted section by section by the Panel
