

Suggestion for new outline of Chapter 4

- 4.1 Introduction
- 4.2 General methodological framework
 - 4.2.1 Change in carbon pools and emissions
 - 4.2.2 Choice of activity data
 - 4.2.3 Uncertainty assessment
- 4.3 Description of activities
 - 4.3.1 Management changes in coastal wetlands
 - 4.3.2 Drainage of coastal wetlands
 - 4.3.3 Rewetting and restoration of coastal wetlands
- 4.4 Specific methodological approaches
 - 4.4.1 Biomass
 - 4.4.2 Dead organic matter
 - 4.4.3 Sediment carbon
 - 4.4.4 Non-CO₂ emissions
- 4.5 Data completeness and quality assurance
 - 4.5.1 Completeness
 - 4.5.2 Developing a consistent time series
 - 4.5.3 Quality assurance and quality control
 - 4.5.4 Reporting and documentation
- 4.6 Future Methodological Development
